| <b>About This Document.....</b>  | <b>1</b>   |
| <b>1 Overall Structure of the BTS3606C.....</b>                                    | <b>1-1</b> |
| 1.1 Physical Structure of the BTS3606C.....  | 1-3        |
| 1.2 Logical Structure of the BTS.....  | 1-6        |
| 1.3 Software Structure of the BTS.....   | 1-6        |
| <b>2 Baseband Subsystem of the BTS.....</b>  | <b>2-1</b> |
| 2.1 Functional Structure of the Baseband Subsystem.....                            | 2-2        |
| 2.2 Hardware Configuration of the Baseband Subsystem.....                          | 2-3        |
| <b>3 RF Subsystem of the BTS.....</b>  | <b>3-1</b> |
| 3.1 Functional Structure of the RF Subsystem.....                                  | 3-2        |
| 3.2 Hardware Configuration of the RF Subsystem.....                                | 3-3        |
| <b>4 Antenna Subsystem of the BTS.....</b>   | <b>4-1</b> |
| 4.1 RF Antenna Subsystem.....  | 4-2        |
| 4.1.1 Functional Structure of the RF Antenna Subsystem.....                        | 4-2        |
| 4.1.2 RF Antenna.....  | 4-3        |
| 4.2 Satellite Synchronization Antenna Subsystem of the BTS.....                    | 4-4        |
| 4.2.1 Functional Structure of the Satellite Synchronization Antenna Subsystem..... | 4-4        |
| 4.2.2 Introduction to the GPS and the GLONASS.....                                 | 4-5        |
| 4.2.3 Hardware Configuration of the Satellite Synchronization Antenna.....         | 4-6        |
| <b>5 Power Supply Subsystem of the BTS.....</b>                                    | <b>5-1</b> |
| 5.1 Functional Structure of the Power Supply Subsystem.....                        | 5-2        |
| 5.2 Hardware Configuration of the Power Supply Subsystem.....                      | 5-2        |
| 5.3 Power Distribution Solutions of the Power Supply Subsystem.....                | 5-3        |
| <b>6 Environment Monitoring Subsystem of the BTS.....</b>                          | <b>6-1</b> |
| 6.1 Functional Structure of the Environment Monitoring Subsystem.....              | 6-2        |
| 6.2 Hardware Configuration of the Environment Monitoring Subsystem.....            | 6-2        |
| <b>7 OM Subsystem of the BTS.....</b>  | <b>7-1</b> |
| 7.1 Structure of the OM Subsystem.....   | 7-2        |
| 7.1.1 Structure of the Local OM System.....  | 7-2        |
| 7.1.2 Mobile Integrated Network Management System.....                             | 7-3        |

|   |             |
|---|-------------|
| 7.2 OM Functions of the BTS.....  | 7-4         |
| <b>8 Signal Flows in the BTS.....</b>   | <b>8-1</b>  |
| 8.1 Abis Traffic Signal Flow in the BTS.....  | 8-3         |
| 8.2 Abis Signaling Signal Flow in the BTS.....  | 8-3         |
| 8.3 OM Signal Flow in the BTS.....  | 8-4         |
| 8.4 Clock Signal Flow in the BTS.....   | 8-5         |
| <b>9 Configuration Requirements for the BTS.....</b>  | <b>9-1</b>  |
| 9.1 Configuration Principles for the Baseband Boards.....                                   | 9-2         |
| 9.2 Configuration Requirements of the RF Modules.....                                       | 9-3         |
| 9.3 Configuration Requirements for the Power Modules.....                                   | 9-5         |
| 9.4 Configuration Requirements of the RF Antennas.....                                      | 9-5         |
| 9.5 Configuration Requirements of the Satellite Synchronization Antennas.....               | 9-5         |
| 9.6 Typical Configurations of the BTS.....  | 9-6         |
| 9.7 Frequency Point Configuration Supporting CDMA2000 1X and CDMA2000 1xEV-DO Services..... | 9-6         |
| <b>10 Transmission and Networking in the BTS.....</b>                                       | <b>10-1</b> |
| 10.1 Star Networking Mode.....  | 10-2        |
| 10.2 Chain Networking Mode.....   | 10-3        |
| 10.3 Tree Networking Mode.....  | 10-3        |
| 10.4 Fractional ATM Networking Mode.....  | 10-4        |
| 10.5 IP Networking Mode.....  | 10-5        |
| 10.6 ODU Cascading Networking Mode.....   | 10-6        |
| <b>11 Technical Specifications of the BTS.....</b>  | <b>11-1</b> |
| 11.1 Performance Specifications of the BTS.....   | 11-2        |
| 11.2 Physical and Electrical Specifications of the BTS.....                                 | 11-4        |
| 11.3 Reliability Specifications of the BTS.....   | 11-5        |
| 11.4 Surge Protection Specifications of the BTS.....  | 11-5        |
| 11.5 Safety Standards That the BTS Complies With.....                                       | 11-6        |
| 11.6 EMC Standards That the BTS Complies With.....  | 11-7        |
| 11.7 Environmental Requirements.....  | 11-8        |
| 11.7.1 Storage Environment.....   | 11-8        |
| 11.7.2 Transportation Environment.....  | 11-11       |
| 11.7.3 Running Environment.....   | 11-13       |

## Figures

|  |      |
|--|------|
| <b>Figure 1-1</b> Hardware structure of the BTS3606C.....                                      | 1-1  |
| <b>Figure 1-2</b> BTS3606C cabinet.....  | 1-3  |
| <b>Figure 1-3</b> BTS3606C cabinet with an extended RF subrack.....                            | 1-4  |
| <b>Figure 1-4</b> Full configuration of the BTS3606C cabinet.....                              | 1-4  |
| <b>Figure 1-5</b> Full configuration of the BTS3606C cabinet with an extended RF subrack.....  | 1-5  |
| <b>Figure 1-6</b> Logical structure of the BTS.....  | 1-6  |
| <b>Figure 1-7</b> Structure of the OM software.....  | 1-7  |
| <b>Figure 1-8</b> Structure of the BTS running software.....                                   | 1-7  |
| <b>Figure 2-1</b> Functional structure of the baseband subsystem.....                          | 2-2  |
| <b>Figure 2-2</b> Full configuration of the baseband subrack.....                              | 2-3  |
| <b>Figure 3-1</b> Functional structure of the RF subsystem.....                                | 3-2  |
| <b>Figure 3-2</b> Functional structure of the RF subsystem with the extended RF subrack.....   | 3-2  |
| <b>Figure 3-3</b> Configuration of the RF subsystem.....                                       | 3-3  |
| <b>Figure 3-4</b> Full configuration of the RF subsystem with the extended RF subrack.....     | 3-3  |
| <b>Figure 4-1</b> Structure of the RF antenna subsystem.....                                   | 4-2  |
| <b>Figure 4-2</b> Functional structure of the satellite synchronization antenna subsystem..... | 4-5  |
| <b>Figure 4-3</b> CSGPS-38BH GPS antenna.....  | 4-6  |
| <b>Figure 4-4</b> AT1675-0 GPS/GLONASS antenna.....  | 4-7  |
| <b>Figure 5-1</b> Functional structure of the power supply subsystem.....                      | 5-2  |
| <b>Figure 5-2</b> Full configuration of the power supply subsystem.....                        | 5-3  |
| <b>Figure 6-1</b> EAC-1.....   | 6-3  |
| <b>Figure 6-2</b> EAC-2.....   | 6-3  |
| <b>Figure 6-3</b> EMU.....   | 6-3  |
| <b>Figure 7-1</b> Structure of the local OM system used by the BSS or AN.....                  | 7-2  |
| <b>Figure 7-2</b> Typical networking mode of the M2000 system.....                             | 7-3  |
| <b>Figure 8-1</b> Signal flows in the BTS.....   | 8-1  |
| <b>Figure 8-2</b> OM signal flow in the BTS.....   | 8-5  |
| <b>Figure 8-3</b> Clock signal flow in the BTS.....  | 8-5  |
| <b>Figure 9-1</b> Full configuration of the baseband subrack.....                              | 9-2  |
| <b>Figure 9-2</b> Full configuration of the RF subsystem.....                                  | 9-4  |
| <b>Figure 9-3</b> Full configuration of the RF subsystem with the extended RF subrack.....     | 9-4  |
| <b>Figure 10-1</b> Star networking mode.....   | 10-2 |
